Qualifications Statement

My Name is Chad Bohannon, and I am a qualified Accident Reconstruction. I have been actively investigating motor vehicle accidents since 1997. I have successfully completed an accredited Accident Reconstruction training program through the Georgia Police Academy and have continued my education and involvement in this field since.

I began my professional law enforcement career with the Columbus Police Department in 1996 as a patrolman. Part of my normal duties was to investigate motor vehicle crashes. I began to specialize in fatality investigations and traffic enforcement in 2000. I continued with the Columbus Police Department until 2005 at which time I went to AFLAC insurance as a fraud investigator. Some of my duties as a fraud investigator were to investigate claims submitted by policyholders involving motor vehicle crashes and injuries resulting from said crashes and determine liability/causation. I later moved positions to investigate agent fraud and then to organizational fraud on a statewide level. While employed with AFLAC, I continued as a traffic advisor with the Muscogee County Sheriff's Office, located in Columbus, Georgia.

In 2013, I separated from AFLAC and went to the Lagrange Police Department as a Patrolman, then as a Senior Patrolman. I was moved to the traffic unit where I investigated fatalities in the city of Lagrange, Georgia.

In 2019, I left the Lagrange Police Department and moved to the Muscogee County Sheriff's Office. I went to the motor squad where I investigated fatalities in Muscogee County, (Columbus) Georgia. In 2023, I was promoted to Corporal and moved to the H.E.A.T unit (DUI task force) which enforces specific traffic related offenses in the State of Georgia, created by the Governor's Office of Highway Safety.

In 2025, I was promoted to Sergeant while still in the H.E.A.T unit and continued with this unit until August of 2026, when I was moved to patrol as a Sergeant. I have continued to receive training through my years of service in the areas of traffic investigation, reconstruction and Impaired driving. I have received several certifications and qualifications in these areas and continue to teach Deputies and speak to interested groups about various traffic safety related topics. In my career, I have investigated and testified in hundreds of criminal cases involving liability, and causation of motor vehicle crashes. I have also been retained many times by various insurance carriers and private attorneys. I have further been deemed an expert witness in these areas in State, Superior and Federal District Court.

Professional Experience

2019- Present	<u>Sergeant</u> Muscogee County Sheriff's Office, GA
